

## Smart Repair – Franchise Opportunity

**A fantastic new opportunity has arisen in the Mobile Smart Repair Industry offering you the potential to earn in excess of £50,000 per year.**

**Commercial Smart Repair in the UK is worth approximately £5 billion/annum with over three million insurance claims fueling the industry.**

Autostone Group are expanding their mobile Smart Repair operation and are looking for enthusiastic and motivated individuals who want to take control of their destiny and earning potential within their own business, by joining this new and vibrant network.

Whether you are an individual looking for a change in career and want to be independent and become your own boss, or you are an existing business in the automotive industry wanting to increase revenue by expanding the services that you offer your customers, then this FRANCHISE OPPORTUNITY might be just what you are looking for.

### **All of our franchisees, who we consider to be our partners, will receive:**

- Full training, including Technical Training and ATA accreditation to ensure high standards and quality
- Ongoing support, including business advice, to help them develop their businesses
- Administration support to minimize the time they spend on paperwork and maximize their opportunities for earning income
- Marketing support to help them promote their business in their local areas

If you have a desire to run your own successful business and take control of what you earn, are a team player, are keen to learn and develop and have a full clean UK driving license, then reply to this ad to arrange an informal chat. Alternatively, please complete our enquiry form on the website:
